

December 8th 1951

3 Centurion Drive Meads Idylgate

Dear Geoff & family. To repeat other letters etc. have not been sent. I am forgetful & my housekeeper has gone away for a few days.

The eggs were quite right, just the outer shells of some were cracked - made work for Geoff and

Barbara. Thank you. Glad you got some ven-

-ison a nice change & the men would show

you how they do it. Also that you have your

harvest in. ~~We have had such gales & wet~~

weather, today it is wet & stormy. Dr. Brown

came on Wednd & gave me an injection & said

I must not go up & down stairs more than

strictly necessary as the heart is not too

good - however I do not feel any worse &

Miss Wright is very good & kind. May & Edith

have a lovely big room, 2 big windows, cen-

-tral heating hot & cold water in their wash

-hand basin, no steps anywhere, even to the

very nice garden, seats in sunshine - I am going

to ask a friend of Miss Wright's who is within

a home to spend Xmas Day here, I enclose
letter from Jeanne, she had rheumatism
or the Firm kindly lent them one of their
cars. They are very happy in their
new home, have put in an Aga stove wh.
heats water, cooks beautifully all day or night
will burn all night + burns little coal or
coke or anything Very very many thanks

for the parcel of groceries. No apples have come
yet. Norman's health much better, he was doing
too much but they gave him he is getting
much less but the ~~Firm~~ Firm are good to him +
they had an accident so were glad to have an
experienced driver. It is cold in Kendall

Again thank you dear ones

Your loving Mother
