Dear Somerset & Barbara -

I expect you are having nice weather now. It is quite cool where we stay, we are so high up. This is a picture of a village near, but it is more lonely where we are. Geoffrey likes to collect wood for his fire, he finds a lot on the ground under the trees. Sometimes he saws off pieces with his small saw. He will be five years old tomorrow & is going to have a little tea party with two of the girls who stay here. He is having a cake, red with chocolate, & some pink Lane orange, we cannot get any jelly now. Love & kisses to all three of you from Granville & I.
