

28 Sept / 41

Foster Cliff Farm  
Silsden Moor.

My dear Susan Geoff.

A rather parcel recd this  
last week addressed to  
mother for which very many  
thanks.

As you are so good sending  
us things we wondered if  
sometime you would send us  
a film Kodak 120. —

$3\frac{1}{4} \times 2\frac{1}{4}$  inches. We can't  
get them at all & we like  
to take the children as the  
months go by. We saved  
one up & the results are  
most disappointing. However  
we'll be able to send 7 or  
8 of the films if we are

able to get re-prints - many  
places won't take orders at all.

Geoffrey has not been well  
for 3 days running a  
very high temperature -  
He gets these acidosis attacks  
& they take a lot out of  
him. He eats nothing  
whilst they last & goes  
down hill fast. He goes  
terribly thin. Dear me  
children bring a lot of  
worry but we'd hate  
to be without them.

We've had just perfect  
weather this Sept. &  
Mr. John Mills had a

nic weeks holiday with  
us. Mother & I were kept  
pretty busy & I find life  
much easier on our rail.  
However they were very  
kind & brought us such a  
lot of things. A doll for  
E & a lovely yellow linen  
smock, G. had boots,  
paints & sweets. The gloves  
you sent G. last X'mas are  
to be passed on to E. this  
year but G. isn't anxious  
to part with them but he  
got them wet so often  
with the snow they began  
to get a little small.

It is amazing how the  
clothing coupons go - just  
into bare essentials. It  
will be so much colder  
here we will have to get  
heavier things which is  
hard on the coupons. I had  
logies up 16 for 2 winter  
nightdresses.

I am going to send 2 or  
3 pairs of old pants of G's which  
I hope will come in for  
Thomas.

Love from us all

Barbara.
